

NPIC/IPD-389/67
6 December 1967

MEMORANDUM FOR THE RECORD

SUBJECT: Integrated Information System

1. On 30 November 1967, [redacted] of [redacted] by telephone for the purpose of getting maintenance labor/spare parts cost figures as relating to [redacted] estimates contained in the IIS System Implementation Plan. [redacted] was unable to furnish the cost breakouts at the time of the phone call and advised that he would obtain the information and call [redacted] back.

2. Since [redacted] Center Project Manager for the Integrated Information System, was in the vicinity of [redacted] asked to speak with him to ascertain what contractual arrangements were in effect concerning [redacted]'s offer to extend the Phase II portion of the IIS contract to 31 January 1968. An earlier understanding of the arrangements was that approximately [redacted] was still remaining and uncommitted in the Phase II portion of the contract and that, without obligating any of these monies, [redacted] would make available certain key personnel for telephonic consultation. Furthermore, should this Center require any services of [redacted] over and above these aforementioned telephonic conversations, then and only then would costs accrue against this estimated [redacted] figure. These services will be performed only upon receipt of a mutually acceptable written statement of work. During this telephone conversation this date, [redacted] confirmed with [redacted] that these arrangements, as understood, were correct. [redacted] further stated that all project authorizations charging to this contract were closed out on 15 November 1967.

[redacted]
Chief, Information Processing Division

Question - If only telephone contact with
 [redacted] is made - will this
 expedite the IDK funds or not?

No, unless answers can not be
 answered without investigative effort.

Question - Any Admin charges in [redacted] contract open. STATINTL

No - unless losses are levied against
 contract -

Possible charges due to adjustments -
 overhead & G&A ~~also~~ as work already
 done and allowed by DOD auditors.

Above info passed to [redacted] 12/11/67

called & said that [redacted] had

been

informed him that there would be approx a 5%
 increase ~~to~~ allowed by the DOD auditors -

This would pretty well eliminate the IDK left
 in their contract.
